

**Streamline your Administrative and Volunteer tasks!**  
**Provide online tools for your Members and visitors!**

## Traction – What is it?

**Traction** is a SAAS (Software As A Service) web-based application tailored to the needs of tractor, threshing and steam shows. Originally designed for use with Western MN Steam Threshers, the idea evolved into an entire platform to provide a user-friendly, online venue for handling many paper-based tasks, or with a lengthy manual process.

**Developed** by a Member of WMSTR, who has been active in the show and technology since the mid 90's, Traction has been created to help organizations that might not have a high level of technical aptitude in computers, but want to begin offering online services to its membership and visitors to add to or replace paper based processes.

**Adding** value with Traction's online features to your website such as Volunteer Hour Submission, Personal Vehicle Registration, Worker Registration and various administrative tasks helps cut down the amount of time your members spend passing paper, and more time enjoying their passion for your show.

**Maybe** your Show is looking to create or improve your existing online identity; Traction can help with that as well. By using a host of Open Source tools, and the Platform itself, we can integrate Social Media and other current trends to get higher visibility online and help promote your Organization. In addition to the Development side, complete web site and E-mail hosting services are also available, at a discounted price to Threshing/Steam/Tractor Shows and/or 501(c)3 organizations.

**Due** to Traction's flexibility, it can be integrated into your existing site, or your current site can be redesigned and upgraded at the same time.

## Components of Traction

### **Members' Section:**

Traction offers many online signup and registration functions, along with an online library of documents, forms and critical information for your Members or guests, all maintained via the Admin Dashboard.

### **Standard Registration Components:**

Submission of hours, personal vehicle registration and annual dues and camping registration is handled in Traction along with online user profiles. Additional components are available, as is the ability to write customized components or modify standard models to fit your needs.

### **Survey Module:**

Want to know how your show appeals to your visitors? By utilizing the Survey within Traction, we can design a custom survey tailored for your Show. The results are stored in Traction's database for review and seeing what your guests say about your show.

### **Real Time Reporting:**

Administrators can view in real time workers' registrations, hour submissions and all components that are collected from the website. Custom reporting is also available.

---

### **Need more information?**

E-mail or call and we can discuss how Traction can help your Show.

Western Minnesota Steam Threshers

## Volunteer Hours Submission

Greetings Tim,

Log your hours below for your Active member hours. Simply fill out the form and they will be sent to the fabulous ladies in the Administration Building!

### Western Minnesota Steam Threshers' Reunion Volunteer Timesheet

Your submission will be E-mailed to the Administration office when you click the submit button. Submissions are tracked, so please hit Submit only once. Hours must be submitted prior to the start of the show to be considered for current years show. Any hours submitted after the Thursday before the show will be counted towards the following year.

Date Submitted: 12/14/2010  
 Volunteer Name: Tim Dachtera - 51507  
 Credit hours to:  Active Member Hours  Camper Hours  
 WMSTR ID Number:   
*Same ID is used for Camper and Worker hours*  
 Project Description:   
 Description of what you did on this project:

Hours Spent on This Project  
 in .5/hr increments (ex: 1.5 = 1.5 hours, 90 mins, etc)

You may submit hours up to one month ago from todays date. You are not allowed to submit hours for the future. - Total hours submitted will be displayed on next page, and in the confirmation email.

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
